AND CHICAGO GAS TO THE FRONT. Wall Street had a spasm of jubilation yesterday wall Street and a spans of the Washington. The over some of the advices from Washington. The result was a lively twist upward in prices of stocks near the close. The announcement that a resolu-tion of closure would be introduced in the United tion of constitution of the Sintes Senate to-day was heralded as assuring the immediate repeal of the Silver Purchase law, and the bull leaders began to "discount" the prosperity expected to flow from it. The cheerful feeling was uraged by the retirement of \$1,400,000 Clearing House certificates, reducing the outstanding amount House certificates, reducing the outstanding amount to \$22,485,000. Notices were received to call in \$200,000 certificates for cancellation to-day. At Boston \$450,000 certificates were cancelled, leaving the amount outstanding at \$10,810,000. The rate of money in Clearing House settlements in Boston fell to 7 per cent, and this, it is believed, foreshadows

The sterling exchange market displayed further strength. The demand from importers who wish to make remittances is increasing, and the supply of commercial bills is falling off. There is also indication of an increased demand for remittances against stocks recently sold by European holders. There was no renewal of offers of a premium on not gold yesterday. The offer of 1-20 of 1 per cent on Monday was not accepted by Zimmerman & Forshay, to whom it was made, as the premium was too trifling for them to bother with it. Some bankers think the offer was made for effect,

The stock market was extremely dull. Prices were barely steady in the early trading, owing to the advance in foreign exchange and the numerous unfavorable weekly returns of railroad earnings. ouisville and Nashville was exceptionally weak falling 14 per cent to 54½c, although it afterward railled to 55½. American Sugar Refining was active and covered a wide range of fluctuations. It early fell 1% per cent to 84%, owing to reports that the Government would soon press its "anti-trust" suit against the company. But the bull pool rallied to the support of the price, and advanced it briskly near the close to 88@87%. The Wormser brothers appeared in the Chicago Gas crowd and put up the price nearly 3 per cent to 61. Traders ran to cover on the rumor that the recently declared dividend would be paid in cash, and kept on buying even advances exceeding 1 per cent were in Chicago, Burlington and Quincy, Chicago, Rock Island and Pacific, and Western Union. The "boom" did not get well under way until the news came from Washington promising a speedy vote on the Repeal

DISPUTE OVER A SALVAGE SUIT.

The schooner Thomas F. Ball, which had been bandoned, was picked up on August 25 by the steamer Monmouth and towed to Hampton Roads She was towed to this port yesterday by the tug A. T. Hudson. The Monmouth filed a libel against the Ball for \$20,000 salvage. Captain Thomas, commander of the schooner, says that he did not really abandon his vessel at all. During the hurricane of August 23 she was thrown on her beam ends, and carried away her jibboom with all sails attached. She was full of water, and had lost her hatches and one anchor. He let go the other anchor and valted for assistance. The steamer Earnford came Baltimore pilotboat, which again transferred em to the steamer Aros, which took them to Norfolk. The captain says he only left the schooner to get assistance, and that he had hired a tug and was out looking for the vessel when she was picked up by the Monmouth.

Mayor Gilroy said that so long as he was Mayor he would never consent to raise the flag of a monarchy on the City Hall to celebrate simply some monarchical event. He referred to his re-fusal to put up the Danish flag on one of Den-mark's holidays.

A member of the committee said: "But you raised the Swedish flag not long ago."
"That," replied Mr. Gilroy, "was at the unveiling of the Ericsson monument, and in honor of

the great inventor of the monitor." The Mayor will go to Torresdale, Penn., to-day, on private business, and will therefore be unable to review the Italian parade. President McClellan. of the Board of Aldermen, as Acting Mayor, will be the reviewing officer.

Antonio Zucca, president of the United Italian Societies, sent a sarcastic letter to Mayor Gilroy in relation to his decision, and informing him tha owing to this fact the route of the parade been changed, so that the City Hall would not be

The Painter woman is a young widow, and she has been employed as housekeeper in the flat in the absence to boarders. Gosse was one of the boarders and he wanted to marry the young widow. Yes Gosse told her that he would kill her if she did not consent to ma.ry him. She again said "no" and tried to escape from him, but he had locked the doors of the flat. At sight of a revolver, which he drew from his pocket, the woman grappled with him and fought desperately to save herself, while she screamed for help. The negro fired two shots, sending one bullet through his own wrist, and another into the woman's upper lip. He then tried to escape from the house, but was caught by Policeman Bauer. Bauer overpowered the negro and locked him up in the West Sixty-

The injured woman was removed to the Roose-velt Hospital, where the surgeons said the bullet had passed through her mouth and had lodged in her neck. Her wound appeared to be dangerous.

over to Superintendent Preston, of the State Banking Department, a copy of the charges preferred depositors of the Commercial Bank of Brooklyn. Mr. Preston said to-day that he would probably have his answer prepared in a day or two. He said further: "Notwithstanding the statement of Chairman Haviland, of the depositors' committee, that I knew the bank was in a weak condition for some time before it closed its doors, my answer will show that in 1891 our examination showed that the bank's capital was impaired to the extent of over which result was brought about by our examiner throwing out the entire amount of the past-due paper of the bank, aggregating \$90,000. I immediately proceeded to Brooklyn, and from a personal examination of the past-due paper I found large proportion of it as good as any paper which the bank had. A large portion of this paper was almost immediately paid or secured to the bank. "I also ascertained that the real estate which the fact, instead of the capital of the bank being impaired at that time, it was intact and the bank ad then a substantial surplus. In 1892 an examination by our department showed not only that the capital of the bank was intact, but that there was a surplus of \$4,600, so that prior to the suspension of the bank this year there has not be pension of the bank this year there has not been a time when I would have been justified in taking possession of the bank on the ground of its in-solvency. I wish to deny the printed statement that I had several times within the last three years criticised the solvency of the Commercial Bank. What I did criticise was the methods of the officers in carrying on the affairs of the insti-tution."

THE BANK DEPOSITORS NOT TO ACT YET. There is no present intention on the part of the depositors of the Commercial Bank to ask the Grand Jury to look into the management of the affairs of that institution. Time will be taken to see what the directors and stockholders will do to pay the depositors, and what the Bank Superintendent will do in regard to the wrecking of the bank. Mr. Dykman, the receiver, received yester-day from the Bank of New-York the rest of the \$314,000 in discounted paper taken as security the day before the Commercial Bank suspended, and \$7,300 in cash which had been collected over and above the amount required to cash the checks paid through the Clearing House. Six of the eight directors have paid their notes of \$10,000 each to make good the impairment of the capital three years ago. The twenty days for which the temporary receiver was appointed have expired, but instead of applying to make the receiver's appoint-ment permanent, application will be made to allow him to act twenty days longer. Another meeting of the depositors will be held on Friday evening.

IT WILL BE CARRIED SIXTY FEET FURTHER INTO THE EAST RIVER.

The removal of the wholesale fish market, which stands on the bulkhead running from Fulton to Beekman st., on the South-st. water-front, has ing the large structure will probably begin to-day. The entire market is to be carried sixty feet outward, and to be reset on a new pile foundation. The work will be in charge of John G. Miller, who has successfully changed the site of many large

them, by managing the floating fishcars and by
supplying ample ice-closets, the boats will fare well
most of the time.

THE COURTS.

THE ATTACHMENT AGAINST DIRECTUM. Henry S. Henry has an attachment against the trotter Directum, and Munro Salisbury, the owne of the horse, is trying to have it set aside. He made a motion through his counsel for that purpose before Judge McAdam, in the Superior Court, yesterday, and decision was reserved. Henry de-clares that he bought the mare Mayday from Salisclares, was that Mayday was only eighteen years old. But like females of a higher type of creatures, he declares that she was older than she was represented to be. Instead of being only eighteen she was twenty-three. Henry had paid \$3,000 on account of the purchase price. This money he demanded back, and offered to return the mare. Salisbury refused to accept the mare or to return the money. Henry then sued for \$3,500, and in that suit he secured an attachment against Directum.

The horse now holds the stallion record. He made it at Fleetwood and lowered it at Chicago, where he trotted in 2.06½. This is also the four-year-old

THE HOSPITAL WILL NOT BE A NUISANCE. The New-York Post-Graduate Medical School and Hospital may go ahead and put up its new building at Twentieth-st, and Second-ave. Daniel Kilmartin tried to prevent the erection of the building there, n the ground that the hospital would be a nuisance. He applied to Judge Bischoff, in the Court of Common Pleas, for an injunction pending the suit which he has brought to restrain the building of the hospital. In a decision handed down yesterday Judge Bischoff denies the application for a temporary in-junction. He says that the present hospital has been maintained for many years near the site of the proposed new building, and that a hospital is not a nulsance per se, nor prima facie a nulsance to the neighborhood where it is proposed to build this one.

THEIR FIRST SPECIAL MILLINERY SHOW.

"Yes," said one of the saleswomen yesterday, holding in each hand ladles' hats of different patterns and of the latest style from Paris, the beauty and attractiveness of which she had just described to the writer. "a nice class of customers comes to look at our goods and to buy them, and we take pleasure in providing for their entertainment. Could anything be nicer than what you see here?" As she spoke she pointed to the large stock of ladies' hats, the latest fashions for this season of the year, which the firm of Abraham eason of the year, which the Straus had purchased in Paris.

This large department of this well-known house was redolent of flowers and palms and potted plants, and the woman of fashion and the woman of moderate means could both be pleased. that small bonnets are "the go." The large hats are trimmed in brown, generally with large plumes and feathers. One could see, too, a great deal of steel trimming and black, and also plateau, satin antique, lined with suede. The writer saw one of these which was a gem. It was made of black satin, with rows of finely plaited black satin ribbon around the edges, lined with turquoise blue velvet, and trimmed outside with black plumes and aigrettes and rosettes of a turquoise blue satin ribbon. A collarette and muff go with the hat. The collarette is made of black doublefaced satin ribbon, finely plaited, with a handso jet ornament on the back, and rosettes and ties of jet ornament on the back, and rosettes and fles of turquoise blue and black satin ribbon. The muff is made to match the collerette. Many of the custom-ers of this firm make it a practice to buy their hats on "the opening day," just as it is fashionable to be a "first-nighter" at a theatre. Then they know that they have got the only imported hat of that kind, which connoisseurs know far outshines in glory the mere duplicate which the firm after-ward makes.

Louisville, Ky., Sept. 19.—The Giants played an excellent game of baseboil to-day, yet they were whitewashed for the third time this season. The New-Yorkers outbatted their rivals nearly three to one, making thirteen hits to fire for the Bourboos, yet were beaten 3 to 0. Such a record seems almost impossible, but it was made here to-day. The Giants were unfortunate in making their hits when hits did not count. Fuller was lame, and Davis, who tried to count. Davis, who tried to cover the whole west end of the clamond, made two errors which were costly, and Ward made one which cost a run. It was only superb fielding work which saved Stratton from slaughter. Baldwin

PITTSBURGS DEFEAT THE BROOKLYNS.

Pittsburg, Sept. 19.—Young Daul started in like a sure winner for the Brooklyns to-day, but before the end of the sixth inning he probably wished he had run up against something easier than the "Pirates," and the heavy rain and hall storm must have been a welcome visitor to him-Earle's home run was the only one carned in the third inning off Daub, but in the fifth the home team carned four trees, including home runs by Earie and Smith. Killen was hit hard in the fourth, but it was after the side should have teen retired. MIMIC WARFARE IN HUNGARY

AN ARTILLERY DUEL ACROSS THE RIVER

THE ARMY OF THE SOUTH SILENCES THE OP POSING GUNS, CROSSES THE STREAM ON

> TION-THE KAISER ENTHUSI-ASTIC, THOUGH UNABLE TO RIDE-SOME SUCCESS-

Guens, Hungary, Sept. 19.-The Imperial army nanoeuvres were continued to-day. The front of in battle array extended over three miles, and the opposing forces numbered more than 130,000 men. Army of the South, which yesterday drove the Army of the North out of this town and compelled it to retreat, pursued the enemy. The Army of the North made a stand against its pursuers at the River Stob, which it had crossed by means of pontoons, and attempted to hold them in check. Field Marshal Von Rhinelander, commanding the Army of the outh, ordered up his artillery and attempted to drive the enemy away from the river. The latter had artillery stationed on the bank of the river and for a time the sham battle raged furiously. Finally some of the guns of the Army of the North were silenced, and under cover of its own guns the Army of the South threw pontoons across the river and effected a landing on the opposite side, the enemy being forced to withdraw.

on the captured ground. The operations yesterday and to-day have been full of surprises, and despite the shortness of the time remarkable results have been accomplished. These developments are regarded by the military authorities as prophetic of the prevailing features of the next war. They say that nowadays the movements on both sides are so elaborately prepared with a view to rallying all possible reources with the utmost rapidity that the decisive result will be reached in much less time than even In 1870-71. take an active part in the movements. He is suffering from a boil, which prevents him from riding on horseback, and witnessed the battle to-day on foot, using a telescope to watch the movements of the troops. He was particularly impressed by the evolutions of the Honveds, and while watching them remarked to Emperor Francis Joseph, who was standing beside him. "What splendid horsemen your Honveds are." Archduchess Maria Theresa, a sister-in-law of the Emperor Francis Joseph, is following the troops on horseback.

The battle to-day was mainly an artillery combat. Both armies have thus far borne the fatigues of the campaign remarkably well, and no sickness among the troops, except a few cases of minor disorders, has come to the attention of the surgeons. The experiment of using bicycle riders and dogs for conveying dispatches is being tried, and has proved highly successful. Another novelty is the use of waterproof silk tents in place of the cumbersome canvas tents hitherto used. The silk tents have been found in every way superior.

Emperor William to-day gave an audience to Count Kalnoky, Austro-Hungarian Prime Minister. At luncheon Emperor William had a long conversation with Dr. Wekerle, the Hungarian Prime Minister. and Count Tisza, Hungarian Minister near the King's person.

GENERAL LOIZILLON PRAISES THE FRENCH ARMY.

Paris, Sept. 19.-General Loizillon, Minister of War, last night gave a banquet at Beauvais, capital of the Department of Oise, to the military chiefs who are taking part in the manoeuvres of the Second and Third Army Corps, under command of General Billot, and to the military attaches of the various embassies in Paris, who are watchof the various embassies in Paris, who are watch-ing the evolutions of the troops. During the ban-quet, General Loizillon praised the efficiency of the French Army, and said he rejoiced at the senti-ments of exteem and fellowship which had been evinced by the alacrity with which the military attaches had accepted the invitation to attend the manoeuvres.

THE MAASDAM DISABLED AT SEA.

HER CRANK-PIN IS BROKEN, AND SHE IS BEING TOWED TO PLYMOUTH BY THE P. CALAND. London, Sept. 19.-The Dutch steamer P. Caland, Captain De Boer, from Rotterdam on September ! for New-York, was spoken on September 17 in latitude 50 north, longitude 24 west. She was then proceeding for Plymouth, having in tow the Dutch steamer Massdam, Capada Potjer, which sailed from Rotterdam on September 6 for New-York. The crank-pin of the Maasdam is broken. The P. Caland was having no difficulty in towing the dis-abled steamer.

General Agent Van Den Toorn, of the Nether lands-American Steam Navigation Company, yester-day afternoon received the following telegram: "Steamers Massdam and P. Caland putting back to Plymouth disabled." This was the first intimation "Steamers Massadm and P. Canan platting oack to Plymouth disabled." This was the first intimation the company had of any mishap to the Massdam, although some uneasiness had been aroused by her being so long overdue. She left Rotterdam on September 6 and passed the Isle of Wight the next day at an early hour. Although not a fast boat, she should have crossed in nine or ten days. She is commanded by Captain De Boer.

When she left Rotterdam not a single berth on board was pnoccupied. She carried lis saloon passengers, 50 in the second cabin and 250 in the steerage, making, with the officers and crew, nearly 600 in all.

Among the passengers were Mrs. J. C. Van Benschoten and three daughters, Professor F. Bonnotte, Palmer Campbell, Nomen Campbell, the Rev. A. H. van der Heyde, Arthur H. Masten, Dr. Eugene Neville, William B. Rankine, Dr. G. G. Ross, Dr. F. J. Schougen, Dr. J. D. Spaeth, Miss Jessie E. Walker, and Mrs. Ziegler.

The Mansdam/was formerly the Republic, of the White Star Line, and was built by the Harland & Wolf Company, of Belfast, in 1871. She is a single-screw, four-masted vessel, bark-rigged, and reg-

THE MINERS' STRIKE LIKELY TO COLLAPSE. London, Sept. 19.-There is evidence that the great strike of coal-miners that was begun on July 28 is doomed to ignominious failure, and that the men will be compelled to return to work at the masters' terms. There are already signs of the willingness of some of the men to return to work, and these indications are more pronounced among the miners having families dependent upon them for support.

BOSTON WOOL MARKET.

Boston, Sept. 19.—There is very little change in the wool market here. Business is steady and prices are where they were a week ago. Ohio fleeces are quite firm at 22a25c for X, 23a24c for XX, 25c for choice XX and above, and 25a25c for No 1. Michigan X sells at 25a25c, and in fine Delaine wools are slow at 25a25c, and in fine Delaine selections there have been sales of Ohio at 25c, and Michigan at 23c per pound. Territory, Texas and California wools sell on a scoured basis principally, of 35a25c for fine and fine medium. In domestic scoured wools there is a fair trade at steady prices, Pulled wools are dull, and foreign wools of all kinds, are neglected. LONDON WOOL SALES.

LONDON WOOL SALES.

London, Sept. 19.—The wool auction sales opened to-day. The offerings comprised 6,000 bales. There was a large attendance. Home and Continental buyers competed actively. Nothing was taken for the United States. Purchases at this series of sales will probably be restricted. The tone to-day was steady, and little of the wool offered was withdrawn. Following are the day's offerings in detail and the prices obtained:

New South Wales—1,000 bales; greasy, 5½610½d.

Victoria—500 bales; greasy, 15½dd.

South Australia—1,000 bales; greasy, 5½405½d.

New-Zealand—1,000 bales; greasy, 3½405½d.
